

## **Pioneering Industrial Solutions for a Resilient Future**

- **Over 25 years of experience in executing major industrial projects in Syria, with a full commitment to global standards and superior quality title**

# INTRALINE

## About Us:

### A Legacy of Industrial Excellence

- lies in providing integrated solutions including steel structures, piping networks, plant installations, and mechanical maintenance, all in accordance with the highest American and European specifications. Our resilience and continued success in a challenging environment testify to our reliability, making us the ideal strategic partner for major projects
- . Our specialty

# *Our Core Services*

---

”:

We offer a comprehensive suite of services designed to meet the complex needs of the modern industrial sector. By combining deep technical expertise with a commitment to quality, we ensure projects are executed efficiently and effectively. Explore our diverse capabilities by clicking the categories below to view details and relevant imagery.

**INTRALINE**

- 1 Steel Structures**
- 2 Piping Networks**
- 3 Plant Installation**

## ***Steel Structures & Silos***

***We specialize in the fabrication, assembly, and installation of all types of steel structures, including latticed and solid structures, platforms, and bridge cranes. Our work also includes manufacturing large industrial tanks and silos in various sizes and designs, complete with sandblasting and painting for maximum protection and durability.***

## ***Piping Networks & Pipelines***

***We undertake the fabrication, installation, and testing of various industrial piping networks (air, steam, water, fuel). Our expertise extends to laying oil and gas pipelines and performing specialized processes like pickling and passivation for oil and grease circuits, ensuring system efficiency and safety..***

## ***Plant & Equipment Installation***

***We have extensive experience in installing food and industrial production lines, including the assembly and installation of equipment, machinery, and hydraulic systems, with full support for commissioning phases. We handle turnkey projects for facilities like glass, steel, and cement plants.***

# *Project Showcase*

*Our extensive track record showcases our ability to deliver complex, large-scale projects across Syria*

Latest maintenance contracts from 2021-2025:

1. Al-Badia Cement Factory hangars

2. Implementation of the construction plant in the Hasya Industrial City, manufacturing complete chrome iron tanks and installing plant equipment and platforms

3. Maintenance at the sugar factory in the Hasya Industrial City

4. Installation of water and diesel tanks at the Lattakia Power Plant.

#	Project Description	Client	Location	Timeline
1	Maktabah Project	-	Aleppo	1991
2	40m Covering Towers	Simenc Co. / Dr. Ramez Raslan	Aleppo - Sfireh	2000
